Fourth Quarter 2006:
- Added 1.6 million RGUs during the quarter - most quarterly additions in Company history
- Reined RGU additions fueled 14% growth in revenue and 17% growth in Operating Cash Flow

Operating Cash Flow (as defined in Table 7) grew 15% to $10.5 billion resulting in an Operating Cash Flow margin of 39.9%, an increase from the 38.8% reported last year. The margin improvement reflects strong revenue growth and our continuing success in controlling the growth of operating costs. In 2006, programming expense increased 8% to $5.4 billion, Comcast hired and trained 6,500 new employees to support higher service and installation activity that resulted from record RGU additions and integrated lower-margin operations received with the cable system acquisitions.

- Video: Added 1.5 million new digital cable subscribers in 2006 - 59% above last year
- Added 91,000 basic cable subscribers during 2006 compared to a loss of 14,000 in the prior year
- High-speed Internet revenues increased 23% to $5.5 billion in 2006, reflecting a 1.9 million or 10% increase in subscribers from the prior year and relatively stable average monthly revenue per subscriber. Comcast ended 2006 with 11.5 million high-speed Internet subscribers or 25% penetration of our footprint.
- Phone: Added over 1.5 million high-speed Internet subscribers during 2006 - highest level of annual additions in Company history

- Phone revenue increased 40% to $585 million due to significant growth in CDV subscriber additions, offset by a $132 million decline in circuit-switched phone revenues as Comcast primarily focuses on marketing CDV in most markets. Comcast ended 2006 with a total of 1.9 million CDV customers or 5.7% of available homes.
- Advertising revenue increased 13% to $1.7 billion in 2006 when compared to 2005, reflecting strong political advertising growth in the second half of 2006. Comcast reported political advertising revenue of more than $50 million in 2005.
- Capital expenditures of $4.6 billion increased 15% in 2006 reflecting primarily the record increase in RGUs during the year. Comcast added 69% more RGUs in 2006 than 2005. Consistent with historical trends, approximately 75% of cable capital expenditures were variable and directly associated with demand for new products in 2006.

Comcast delivered strong cable results as compared to the annual guidance updated on October 26, 2006:

- Revenue growth 10-11%
- Operating Cash Flow growth at least 14%
- Net addition growth approximately 4%
- Capital expenditures approximately $4.1 billion
- Free cash flow per share was $1.01 for the quarter, compared to $1.05 per share last year

Comcast reported a loss of $0.3 billion in the fourth quarter of 2006, an increase of 14% from the prior year. Video revenue increased 9% reflecting growth in both basic and digital cable customers and increased demand for advanced digital features such as DVD and HDTV. Comcast added 10.0 million digital cable subscribers and 110,000 basic cable subscribers during the fourth quarter of 2006, each representing the highest quarterly additions in more than 10 years. Driven by increasing ON DEMAND movie purchases, pay-per-view revenue increased 24% to $150 million in 2006. Pay-per-view revenue has increased more than 20% on average for the past eight quarters.

High-speed Internet revenues increased 23% in the quarter to $1.5 billion. The strong growth includes the addition of 400,000 high-speed Internet subscribers or 25% of the total high-speed Internet subscriber base.

Advertising revenue increased 1% to $2.1 billion in 2006 when compared to 2005, reflecting strong political advertising growth in the second half of 2006. Comcast reported political advertising revenue of more than $50 million in 2005.

Operating Cash Flow grew 17% to $7.2 billion during the quarter, reflecting strong revenue growth and the Company's success in controlling the growth of operating costs, even as we experience higher service and installation activity from record RGU additions and integrate recently acquired cable systems. Operating Cash Flow margin for the quarter was 39.3% compared to 38.9% one year ago.

Comcast Cable capital expenditures of $1.4 billion for the quarter were 43% higher than the fourth quarter of 2005 driven by the record RGU additions during the period. Comcast added 77% more RGUs in the fourth quarter of 2006 than 2005.

Programming Segment Results:

- Comcast's Programming segment consists of our national programming networks E! Entertainment Television and Style Network (E! Networks), The Golf Channel, VERSUS (formerly OLN), G4 and AE Network.
- The Programming segment reported 2006 revenue of $11.1 billion, a 15% increase from 2005, reflecting increases in network ratings, advertising and distribution revenue. Operating Cash Flow decreased 1% to $2.4 billion in 2006, reflecting investments in programming at all of our networks, particularly programming and production expenses related to VERSUS coverage of the National Hockey League. For the fourth quarter of 2006, Comcast's Programming segment reported revenue of $281 million, a 21% increase compared to the prior year and Operating Cash Flow of $43 million, an increase of 35% from the same period last year reflecting increases in network ratings, advertising revenue and distribution revenue.

- Corporate and Other:
- Corporate and Other includes Comcast Spectator, corporate overhead and other operations, and eliminations between Comcast's businesses. In 2006, Comcast reported Corporate and Other revenue of $203 million and an Operating Cash Flow loss of $10 million, as compared to revenue of $170 million and an Operating Cash Flow loss of $133 million in 2005.
- For the quarter ended December 31, 2006, Corporate and Other revenue increased to $90 million from the $72 million reported in 2005. The Operating Cash Flow loss for the fourth quarter of 2006 was $109 million compared to a loss of $77 million in 2005.

Consolidated Results:

Year ended December 31, 2006

Consolidated results include all acquisitions, as of the date of their closing. Comcast acquired Susquehanna Communications in April 2006, and completed the Adelphia/Time Warner transactions in July 2006. As part of the Adelphia/Time Warner Transactions Comcast transferred cable systems serving Los Angeles, Dallas and Cleveland to Time Warner (presented as discontinued operations for all periods). Consolidated results, as of December 31, 2006, include our interest in the Texas/Kansas City cable partnership as an equity method investment.
Revenue increased 18% in 2006 to $25.0 billion while Operating Cash Flow(4) increased 19% to $9.4 billion and Operating Income increased 31% to $4.8 billion. This significant growth was due to strong results at Comcast Cable and the impact of cable system acquisitions in 2006.

Net income increased to $2.5 billion, or $1.19 per share, in 2006, compared to net income of $928 million or $0.42 per share in 2005. In addition to strong operating results at Comcast Cable, this year includes an estimated one-time gain, included in investment income, of $646 million (or $455 million of net tax) related to the Adelphia/Time Warner transactions. Also included in this year’s results is a one-time gain of $195 million, net of tax, on discontinued operations related to the transfer of cable systems to Time Warner. Excluding these gains and reconciled in Table 7-C, Adjusted Net Income for 2006 would be $1.9 billion or $0.90 per share.

Net Cash Provided by Operating Activities increased to $6.6 billion in 2006 from $4.8 billion in 2005 due primarily to stronger operating results, the cable system acquisitions and changes in operating assets and liabilities.

Free Cash Flow (described further on Table 4) increased $208 million to $2.9 billion in 2006 compared to $2.0 billion in 2005, due primarily to growth in consolidated Operating Cash Flow, the cable system acquisitions and changes in working capital.

Fourth Quarter 2006

Driven by strong results at Comcast Cable and the impact of cable acquisitions in 2006, Comcast reported consolidated revenue of $7.0 billion, an increase of 30%, in the fourth quarter of 2006 while consolidated Operating Cash Flow(4) increased 30% to $2.6 billion. Consolidated operating income increased 43% to $1.2 billion in the fourth quarter of 2006 compared to $0.84 billion reported in 2005.

Net income increased to $595 million, or $0.18 per share, for the fourth quarter of 2006 compared to net income of $132 million, or $0.09 per share, in the prior year. Strong operating results at Comcast Cable contributed to the growth in net income. Included in this quarter’s results are two adjustments reducing the gain recorded on the Adelphia/Time Warner transactions in the third quarter of 2005. These reductions represent a refinement of estimated gains due primarily to updated valuations. The first adjustment, included in investment income, is a $49 million (or $30 million of net tax) reduction. The second is an adjustment of $39 million of net tax on the gain on discontinued operations related to the transfer of cable systems to Time Warner. Excluding these adjustments and reconciled in Table 7-C, Adjusted Net Income for the fourth quarter of 2006 would be $0.65 billion or $0.21 per share.

In 2006, Comcast repurchased $2.2 billion or 7.4 million Class A Special Common (CMCSK) shares, reducing the number of total shares outstanding by more than 2%. Comcast repurchased $447 million or 11.2 million shares of its CMCSK stock during the fourth quarter of 2006.

Pro Forma Consolidated Results(5)

Pro forma consolidated results are presented as if the acquisition of Susquehanna Communications and the Adelphia/Time Warner transactions were effective on January 1, 2005. Pro forma consolidated results also include the results of the Houston, TX cable systems received with the dissolution of the Texas/Kansas City cable partnership as of that transaction was effective on January 1, 2005 as well. (See note 2 for additional details).

Revenue increased 12% to $27.6 billion in 2006 while Operating Cash Flow increased 14% to $10.4 billion for the year reflecting record setting results at Comcast Cable.

Comcast delivered strong consolidated results as compared to the annual guidance update on October 26, 2006:

Share Repurchase Program

In 2006, Comcast repurchased $2.2 billion or 7.4 million Class A Special Common (CMCSK) shares, reducing the number of total shares outstanding by more than 2%. These investments include repurchasing $6.0 billion or 202.3 million shares of common stock and redeeming several debt issues for $1.4 billion that were exchangeable into 47.3 million shares of common stock. The shares amounts above are not adjusted for today's announced stock split.

2007 Financial Outlook

- Cable revenue growth of at least 15%(4)
- Cable Operating Cash Flow growth of at least 14%(4)
- Cable revenues net additions of approximately 5.7 million, 30% above 2006
- CGN net additions(2) of 5 million
- RGU outlook includes an expected decrease of 500,000 circuit- exchanged phone numbers
- Cable capital expenditures of approximately $7.7 billion, including commercial services capital expenditures of approximately $700 million
- Corporate and other capital expenditures of approximately $700 million primarily due to the relocation of Comcast’s headquarters
- Consolidated revenue growth of at least 19%(4)
- Consolidated Operating Cash Flow growth of at least 19%(4)
- Consolidated Free Cash Flow approximately the same as 2006

Notes:

1. Operating Cash Flow percentage growth is adjusted if stock options had been expensed in 2005. Operating income and earnings per share percentage growth are unaudited. Per share amounts are not adjusted for today’s announced stock split. See Tables 7-A and 7-B for reconciliation of “as adjusted” financial data.

2. Cable results are presented on a pro forma basis, as adjusted, basic. Pro forma results adjust only for certain acquisitions and dispositions, including Susquehanna Communications (April 2004), the Adelphia/Time Warner transaction (July 2006) and the dissolution of the Texas/Kansas City cable partnership (effective January 1, 2007).

3. Effective August 1, 2005, our economic interest in the Texas/Kansas City cable partnership changed solely the performance of the Houston, TX cable systems. Accordingly, we included the system’s results in Cable pro forma data. Cable results are presented as if the transactions noted above were effective on January 1, 2005. The net impact of these transactions was to increase the number of basic cable subscribers by 0.6 million. These “as adjusted” results are presented as if stock options had been expensed in 2005. Please refer to Tables 7-A and 7-B for a reconciliation of pro forma, “as adjusted” financial data.

4. Represents the sum of basic and digital cable, high-speed Internet and net phone subscribers, excluding additional outlets. Subscriptions to WW and/or MVP services by existing Comcast Digital Cable customers do not result in additional RGUs.

5. Operating Cash Flow adjusted as if stock options had been expensed in 2005.
