### Item 2.02. Results of Operations and Financial Condition

On February 3, 2010, Comcast Corporation ("Comcast") issued a press release reporting the results of its operations for the three and twelve months ended December 31, 2009. The press release is attached hereto as Exhibit 99.1. Exhibit 99.2 sets forth the reasons Comcast believes that presentation of the non-GAAP financial measures contained in the press release provides useful information to investors regarding Comcast's financial condition and results of operations. To the extent material, Exhibit 99.2 also discloses the additional purposes, if any, for which Comcast's management uses these non-GAAP financial measures. A reconciliation of these non-GAAP financial measures with the most directly comparable GAAP financial measures is included in the press release itself. Comcast does not intend for this Item 2.02 or Exhibit 99.1 or Exhibit 99.2 to be treated as "filed" under the Securities Exchange Act of 1934, as amended, or incorporated by reference into its filings under the Securities Act of 1933, as amended.

Philadelphia, PA – February 3, 2010 ... Comcast Corporation (NASDAQ: CMCSA, CMCSK) today reported results for the quarter and year ended December 31, 2009.

Brian L. Roberts, Chairman and Chief Executive Officer of Comcast Corporation, said "I am pleased to report healthy operating and financial results for 2009. We are particularly proud of our accomplishments this year in light of a difficult economic environment affecting the consumer and our advertising business, as well as intensified competition. These results highlight the strength and resilience of our businesses, as well as effective execution, with a focus on profitable growth, expense control and prudent capital management. In 2009, we continued to invest in our products and services and in growth opportunities like Comcast Business Services. We also made real progress deploying All-Digital and Wideband, and launched innovative products like Comcast High-Speed 2go, our 4G wireless broadband service, and On Demand Online. We believe these initiatives and our focus on delivering the best consumer experience further improves our competitive position now and in the future.

We are also excited about the opportunity to strengthen our position in content through the announced NBC Universal transaction, and to bring those assets together with our already-strong position in cable and broadband distribution. Our technology platform now allows for significant cross platform integration and product innovation that will help us expand the entertainment options we offer our customers.

As we begin 2010, Comcast is well positioned to continue to execute and deliver growth with a continued focus on building value for our shareholders."

## **Consolidated Financial Results**

*Revenue* increased 3.9% in 2009 to \$35.8 billion, while *Operating Cash Flow* increased 4.4% to \$13.7 billion and *Operating Income* increased 7.2% to \$7.2 billion. This growth is due to solid results at all our operating segments.

For the quarter ended December 31, 2009, *Revenue* increased 2.9% to \$9.1 billion and *Operating Cash Flow* increased 1.1% to \$3.4 billion, reflecting continued growth at Cable, partially offset by higher expenses at Programming and Corporate and Other. Fourth quarter 2009 *Operating Income* increased 3.4% to \$1.8 billion.

For additional detail on revenue and operating expenses, customer metrics, and capital expenditures, please refer to the trending schedules on Comcast's Investor Relations website at www.cmcsa.com or www.cmcsk.com.

*Earnings per Share*<sup>2</sup> *(EPS)* for 2009 was \$1.26, a 46.5% increase from \$0.86 in 2008, reflecting growth in Consolidated Operating Cash Flow, lower interest expense from a reduction in total debt and a lower effective tax rate resulting from the recognition of income tax benefits.

- EPS for 2009 includes a \$180 million one-time pretax financing charge related to the \$1.3 billion debt tender in July 2009 (\$113 million or \$0.04 per share after tax) as well as the recognition of income tax benefits of \$566 million or \$0.20 per share.
- EPS for 2008 includes a \$235 million pretax gain related to the January 2008 dissolution of the Insight Midwest partnership (\$144 million or \$0.05 per share after tax), a \$600 million pretax impairment charge for our Clearwire investment (\$378 million or \$0.13 per share after tax) and the recognition of income tax benefits of \$154 million or \$0.05 per share.
- Except for these items, 2009 EPS would have grown 23.6% over 2008.

Earnings per Share for the quarter ended December 31, 2009 was \$0.33, a 136% increase from the \$0.14 reported in the fourth quarter of 2008, reflecting growth in Consolidated Operating Cash Flow and lower interest expense from a reduction in total debt.

- Fourth quarter 2009 EPS includes the recognition of income tax benefits of \$130 million or \$0.04 per share.
- Fourth quarter 2008 EPS includes a \$600 million pretax impairment charge for our Clearwire investment (\$378 million or \$0.13 per share after tax) and the recognition of income tax benefits of \$74 million or \$0.02 per share.
- Except for these items, fourth quarter 2009 EPS would have grown 16.0% over the comparable period in 2008.

*Capital Expenditures* for 2009 declined 11.0% to \$5.1 billion, or 14.3% of total revenue, reflecting lower residential unit additions and improved equipment pricing, partially offset by an increased investment in Comcast Business Services and strategic initiatives like All-Digital and Wideband. For the quarter ended December 31, 2009, Capital Expenditures decreased 6.0% from the prior year to \$1.6 billion.

*Free Cash Flow* (excluding any impact from the Economic Stimulus packages) increased 20.8% to \$4.4 billion in 2009 from \$3.7 billion in 2008. The increase in Free Cash Flow was driven by lower capital expenditures and modestly higher Net Cash Provided by Operating Activities reflecting growth in Consolidated Operating Cash Flow, primarily offset by higher cash taxes. Free Cash Flow for the fourth quarter of 2009 totaled \$768 million, a 11.1% decline from \$864 million in the fourth quarter of 2008, reflecting lower Net Cash Provided by Operating Activities as a result of changes in operating assets and liabilities and higher cash taxes, partially offset by lower capital expenditures.

# **Cable Segment Results**

For 2009, Cable segment revenue increased 3.8% to \$33.9 billion from \$32.6 billion in 2008. This increase reflects continued growth in high-speed Internet (HSI), Comcast Digital Voice (CDV) and Comcast Business Services, partially offset by lower growth in video revenue principally due to video customer losses and lower advertising revenue. The monthly average total revenue per video customer increased 6.4% from \$111.05 to \$118.20, reflecting an increasing number of customers taking multiple products and a higher contribution from Comcast Business Services.

For 2009, Operating Cash Flow grew 4.0% to \$13.7 billion from \$13.2 billion in 2008, equal to an Operating Cash Flow margin of 40.4% in both 2009 and 2008. These results reflect a continued focus on expense management and improved operational efficiencies in CDV and HSI, offset by increases in video programming, technical labor and customer service expenses.

For the quarter ended December 31, 2009, Cable segment revenue increased 2.6% to \$8.6 billion compared to \$8.3 billion reported in the fourth quarter of 2008. This increase reflects higher HSI, CDV and Comcast Business Services revenue, partially offset by lower advertising revenue as well as lower video revenue due to video customer losses and more moderate rate increases compared to the fourth quarter of 2008.

Operating Cash Flow for the fourth quarter of 2009 increased 1.7% to \$3.5 billion compared to \$3.4 billion in the prior period. This quarter's results include \$81 million of severance-related charges as compared to \$63 million in last year's fourth quarter. Operating Cash Flow margin was 40.6% in the fourth quarter of 2009 compared to 40.9% in the fourth quarter of 2008.

*Customers*<sup>3</sup>. As of December 31, 2009, Comcast's video, high-speed Internet and voice customers totaled 47.1 million, reflecting 1.5 million net additions during 2009.

(in thousands)	(	Net Adds			
	YE 08	YE 09	Growth	4Q09	2009
Video Customers	24,182	23,559	(2.6%)	(199)	(623)
High-Speed Internet Customers	14,929	15,930	6.7%	247	1,002
Voice Customers	6,473	7,622	17.8%	243	1,149
Combined Video, HSI and Voice Customers	45,584	47,112	3.4%	290	1,528
Digital Video Customers	17,004	18,415	8.3%	410	1,411
Total Revenue Generating Units	62,588	65,527	4.7%	701	2,939

## **Programming Segment Results**

The Programming segment reported 2009 revenue of \$1.5 billion, a 4.9% increase from the \$1.4 billion reported in 2008, reflecting higher affiliate revenue, partially offset by a weak advertising environment. Operating Cash Flow increased 7.5% to \$389 million in 2009 compared to \$362 million reported in 2008.

For the fourth quarter of 2009, Comcast's Programming segment reported revenue of \$368 million, an increase of 5.2% compared to \$350 million reported in the fourth quarter of 2008, reflecting higher advertising and affiliate revenue. Operating Cash Flow decreased 17.0% from \$55 million to \$46 million in the fourth quarter of 2009, reflecting an expected increase in marketing to launch new shows and the recognition of higher programming expenses in the fourth quarter.

# **Corporate and Other**

Corporate and Other includes corporate overhead, Comcast Interactive Media (CIM), Comcast-Spectacor, and other operations and eliminations between Comcast's businesses. In 2009, Comcast reported Corporate and Other revenue of \$403 million, a 3.9% increase over the \$387 million reported in 2008. The Operating Cash Flow loss for the year was \$369 million compared to a loss of \$400 million in 2008.

For the quarter ended December 31, 2009, Corporate and Other revenue increased 14.3% to \$138 million from the \$119 million reported in the fourth quarter of 2008, reflecting strong results at CIM and Comcast-Spectacor, partially offset by an increase in corporate eliminations. The Operating Cash Flow loss for the fourth quarter of 2009 was \$110 million compared to a loss of \$100 million for the same time period in 2008. This quarter's results include approximately \$20 million of expenses related to the NBC Universal transaction.

## Share Repurchase

During the fourth quarter of 2009, Comcast repurchased 18.1 million of its common shares for \$300 million. In 2009, Comcast repurchased 49.8 million of its common shares for \$765 million, reducing the number of total shares outstanding by 1.7%.

As of December 31, 2009, Comcast had approximately \$3.3 billion of availability remaining under its share repurchase authorization. As previously announced, Comcast intends to complete its current share repurchase program by the end of 2012, subject to market conditions.

#### Dividend

During 2009, Comcast paid four cash dividends totaling \$761 million. On December 3, 2009, Comcast announced a 40% increase to its planned annual dividend to \$0.378 a share. In accordance with the increase, Comcast paid a quarterly cash dividend of \$268 million on January 27, 2010.

#### Notes:

- 1 In 4Q09, reclassifications were made to prior period results to reflect a change in certain advertising commission and representation fees as operating expenses rather than a reduction of revenue. Although there is no change to prior period OCF, the reclassifications had a minor impact on prior year OCF margins, capital expenditures as a percent of revenue and average monthly total revenue per video customer.
- 2 Earnings per share amounts are presented on a diluted basis.
- 3 Customer data is presented on a pro forma basis. Pro forma customer data includes 7,000 video customers acquired through an acquisition in November 2008. The impact of this acquisition on segment operating results was not material.

All percentages are calculated on whole numbers. Minor differences may exist due to rounding.

### Exhibit 99.2 – Explanation of Non-GAAP and Other Financial Measures

This Exhibit 99.2 to the accompanying Current Report on Form 8-K for Comcast Corporation (the "Company", "we", "us" or "our") sets forth the reasons we believe that presentation of financial measures not in accordance with generally accepted accounting principles in the United States (GAAP) contained in the earnings press release filed as Exhibit 99.1 to the Current Report on Form 8-K provides useful information to investors regarding Comcast's financial condition and results of operations. To the extent material, this Exhibit also discloses the additional purposes, if any, for which Comcast's management uses these non-GAAP financial measures with the most directly comparable GAAP financial measures is included in the earnings press release itself.

Operating Cash Flow is the primary basis used to measure the operational strength and performance of our businesses. Free Cash Flow and Unlevered Free Cash Flow are additional performance measures used as indicators of our ability to service and repay debt, make investments and return capital to investors, through stock repurchases and dividends. We also adjust certain historical data on a pro forma basis following certain acquisitions or dispositions to enhance comparability.

Operating Cash Flow is defined as operating income before depreciation and amortization, excluding impairment charges related to fixed and intangible assets and gains or losses on sale of assets, if any. As such, it eliminates the significant level of non-cash depreciation and amortization expense that results from the capital intensive nature of our businesses and intangible assets recognized in business combinations, and is unaffected by our capital structure or investment activities. Our management and Board of Directors use this financial measure in evaluating our consolidated operating performance and the operating performance of all of our operating segments. This metric is used to allocate resources and capital to our operating segments and is a significant performance measure in our annual incentive compensation programs. We believe that Operating Cash Flow is also useful to investors as it is one of the bases for comparing our operating performance with other companies in our industries, although our measure of Operating Cash Flow may not be directly comparable to similar measures used by other companies.

As Operating Cash Flow is the measure of our business segment profit or loss, we reconcile it to operating income, the most directly comparable financial measure calculated and presented in accordance with GAAP, in the business segment footnote of our quarterly and annual financial statements. Therefore, we believe our measure of Operating Cash Flow for our business segments is not a "non-GAAP financial measure" as contemplated by Regulation G adopted by the Securities and Exchange Commission. Consolidated Operating Cash Flow is a non-GAAP financial measure.

Free Cash Flow, which is a non-GAAP financial measure, is defined as "Net Cash Provided by Operating Activities" (as stated in our Consolidated Statement of Cash Flows) reduced by capital expenditures and cash paid for intangible assets; and adjusted for any payments related to certain nonoperating items, net of estimated tax benefits (such as income taxes on investment sales and nonrecurring payments related to income tax and litigation contingencies of acquired companies). Unlevered Free Cash Flow is Free Cash Flow before cash paid interest. We believe that Free Cash Flow and Unlevered Free Cash Flow are also useful to investors as the basis for comparing our performance and coverage ratios with other companies in our industries, although our measure of Free Cash Flow and Unlevered Free Cash Flow may not be comparable to similar measures used by other companies.

Pro forma data is used by management to evaluate performance when certain acquisitions or dispositions occur. Historical data reflects results of acquired businesses only after the acquisition dates while pro forma data enhances comparability of financial information between periods by adjusting the data as if the acquisitions or dispositions occurred at the beginning of the prior year. Our pro forma data is only adjusted for the timing of acquisitions or dispositions and does not include adjustments for costs related to integration activities, cost savings or synergies that have been or may be achieved by the combined businesses. We believe our pro forma data is not a non-GAAP financial measure as contemplated by Regulation G.

In certain circumstances we also present "adjusted" data, to exclude certain gains, losses or other charges, net of tax (such as from the sales of investments or dispositions of businesses). This "adjusted" data is a non-GAAP financial measure. We believe, among other things, that the "adjusted" data may help investors evaluate our ongoing operations and can assist in making meaningful period-over-period comparisons.

#### Exhibit 99.2 – Explanation of Non-GAAP and Other Financial Measures, cont'd

Non-GAAP financial measures should not be considered as substitutes for operating income (loss), net income (loss) attributable to Comcast Corporation, net cash provided by operating activities or other measures of performance or liquidity reported in accordance with GAAP.

Additionally, in the opinion of management, our pro forma data is not necessarily indicative of future results or what results would have been had the acquired businesses been operated by us after the assumed earlier date.

We provide reconciliations of Free Cash Flow in Exhibit 99.1 to this current report on Form 8-K and of Consolidated Operating Cash Flow in Table 1 set forth in Exhibit 99.1 to this Current Report on Form 8-K.
