COMCAST REPORTS 4th QUARTER 2023 RESULTS

PHILADELPHIA - January 25, 2024... Comcast Corporation (NASDAQ: CMCSA) today reported results for the quarter ended December 31, 2023.

"We capped off 2023 and the fourth quarter with excellent operational and financial performance," said Brian L. Roberts, Chairman and Chief Executive Officer of Comcast Corporation. "For the third consecutive year, we generated the highest Revenue, Adjusted EBITDA and Adjusted EPS in our company's history. At the same time, we invested in future growth, returned \$16 billion to shareholders and maintained a healthy balance sheet. We drove strong revenue and Adjusted EBITDA growth in our Connectivity & Platforms businesses and continued to expand and upgrade our network to fuel broadband. We also reported the highest Adjusted EBITDA on record at Theme Parks; were the #1 studio in worldwide box office for the first time since 2015; and maintained Peacock's position as the fastest growing streamer in the U.S. 2024 is already off to a great start – I couldn't be more proud of how our company came together to deliver a record-breaking NFL Wild Card game on Peacock and the nation's biggest night on the Internet ever. Our unique and complementary capabilities will enable us to capitalize on the many opportunities ahead, and the Board's confidence in our future is reflected in today's announcement that we are increasing our dividend for the 16th consecutive year."

- Increased Dividend by \$0.08, or 6.9% Year-over-Year, to \$1.24 per Share on an Annualized Basis for 2024, the 16th Consecutive Annual Increase; Increased Share Repurchase Authorization to \$15 Billion
- Continued the Successful Execution of Our Domestic Network Expansion and Upgrade Strategy; Increased Homes and Businesses Passed in 2023 by 1.1 Million to 62.5 Million; Expanded Deployment of Mid-Split Technology to 35% of Our Footprint at Year-End; and Began Rolling-Out Multi-Gigabit Symmetrical Speeds Starting in Select Markets in the Fourth Quarter
- Domestic Broadband Average Rate Per Customer Increased 3.9% and Drove Domestic Broadband Revenue Growth of 3.7% in the Fourth Quarter and 4.2% for the Full Year
- Domestic Wireless Customer Line Net Additions Were 310,000 in the Fourth Quarter and 1.3 Million for the Full Year; Lines Increased 24% Compared to the Prior Year Period Reaching 6.6 Million
- Peacock Paid Subscribers Increased Nearly 50% Compared to the Prior Year Period to 31 Million, Including Net Additions of 3 Million in the Fourth Quarter. Peacock Revenue in the Fourth Quarter Increased 57%, Surpassing \$1.0 Billion in Quarterly Revenue for the First Time; Adjusted EBITDA in the Fourth Quarter Improved Compared to the Prior Year Period

- Studios Ranked #1 in Worldwide Box Office for the Full Year, Including 3 of the Top 5 Films: *Super Mario Bros. Movie*, *Oppenheimer* and *Fast X*
- Theme Parks Generated Its Highest Adjusted EBITDA on Record for a Fourth Quarter and a Full Year. Adjusted EBITDA Increased 11.6% to \$872 Million in the Fourth Quarter and 24.7% to \$3.3 Billion for the Full Year

4th Quarter Consolidated Financial Results

Revenue increased 2.3% compared to the prior year period. **Net Income Attributable to Comcast** increased 7.8%. **Adjusted Net Income** decreased 3.1%. **Adjusted EBITDA** was consistent with the prior year period, including \$527 million of severance and other in the quarter and \$638 million of severance in the prior year period. Excluding severance and other⁷, Adjusted EBITDA decreased 1.2%.

Earnings per Share (EPS) increased 15.7% to \$0.81. **Adjusted EPS** increased 2.4% to \$0.84.

Capital Expenditures decreased 6.9% to \$3.3 billion. Connectivity & Platforms' capital expenditures decreased 19.4% to \$2.1 billion, reflecting lower spending on customer premise equipment, scalable infrastructure and support capital, partially offset by higher investment in line extensions. Content & Experiences' capital expenditures increased 28.5% to \$1.2 billion, reflecting increased investment in constructing the Epic Universe theme park in Orlando, which is scheduled to open in 2025.

Net Cash Provided by Operating Activities was \$5.9 billion. **Free Cash Flow** was \$1.7 billion.

Dividends and Share Repurchases. Comcast paid dividends totaling \$1.2 billion and repurchased 81.9 million of its common shares for \$3.5 billion, resulting in a total return of capital to shareholders of \$4.7 billion.

Today, Comcast announced that it increased its dividend by \$0.08, or 6.9% year-over-year, to \$1.24 per share on an annualized basis for 2024. In accordance with the increase, the Board of Directors declared a quarterly cash dividend of \$0.31 per share on the company's stock, payable April 24, 2024, to shareholders of record as of the close of business on April 3, 2024. The Board of Directors also approved a new share repurchase program authorization, effective as of January 26, 2024, of \$15 billion, which does not have an expiration date. We expect to repurchase shares of our Class A common stock under this authorization in the open market or private transactions, subject to market and other conditions.

Revenue for Connectivity & Platforms was consistent with the prior year period. **Adjusted EBITDA** increased 3.1%, including \$422 million of severance and other in the quarter and \$456 million of

severance in the prior year period. Excluding severance and other and the impact of foreign currency⁷, Adjusted EBITDA increased 2.4% due to growth in Residential Connectivity & Platforms Adjusted EBITDA and Business Services Connectivity Adjusted EBITDA. **Adjusted EBITDA margin** increased 90 basis points to 37.1%. Excluding severance and other and the impact of foreign currency⁷, Adjusted EBITDA margin increased 110 basis points.

<i>Adjusted EBITDA Margin</i>	34.8 %	33.6 %	120 bps	160 bps

Change percentages represent year/year growth rates. Change in Adjusted EBITDA margin is presented as year/year basis point changes.

Revenue for Residential Connectivity & Platforms was consistent compared to the prior year period, but decreased when excluding the positive impact of foreign currency. Growth in residential connectivity revenue was driven by: international connectivity revenue due to increases in wireless revenue, reflecting higher sales of wireless devices and services, and in broadband revenue, as well as the positive impact of foreign currency; domestic broadband revenue due to higher average rates; and domestic wireless

revenue due to an increase in the number of customer lines. The growth in residential connectivity revenue was offset by: a decrease in video revenue due to a decline in the number of video customers, partially offset by an increase in average rates and the positive impact of foreign currency; lower advertising revenue primarily due to a decline in domestic political advertising; and lower other revenue primarily due to lower residential wireline voice revenue, driven by a decline in the number of customers.

Adjusted EBITDA for Residential Connectivity & Platforms increased 3.3%, including \$380 million of severance and other in the quarter and \$449 million of severance in the prior year period. Programming expenses decreased primarily due to the decline in the number of domestic video customers, partially offset by domestic contractual rate increases, an increase in programming expenses for international sports networks and the impact of foreign currency. Non-programming expenses decreased primarily due to lower spending on marketing and promotion, lower fees paid to third-party channels related to advertising sales, lower technical and support costs, and lower severance and other. These decreases were partially offset by increased direct product costs associated with our wireless service, from increases in device sales and the number of customers receiving our wireless service, and by the impact of foreign currency. Excluding severance and other and the impact of foreign currency⁷, Adjusted EBITDA increased 1.9%. **Adjusted EBITDA margin** increased 120 basis points to 34.8%. Excluding severance and other and the impact of foreign currency⁷, Adjusted EBITDA margin increased 120 basis points.

Business Services Connectivity

<i>Adjusted EBITDA Margin</i>	55.2 %	57.2 %	(200) bps	(200) bps

Change percentages represent year/year growth rates. Change in Adjusted EBITDA margin is presented as year/year basis point changes.

Revenue for Business Services Connectivity increased due to an increase in revenue from small business customers, driven by higher average rates, and an increase in revenue from medium-sized and enterprise customers.

Adjusted EBITDA for Business Services Connectivity increased 2.1%, including \$42 million of severance in the quarter and \$7 million of severance in the prior year period. The increase in Adjusted EBITDA reflects higher revenue, partially offset by higher operating expenses primarily due to an increase in direct product costs and higher severance. Excluding severance and the impact of foreign currency⁷, Adjusted EBITDA increased 4.8%. **Adjusted EBITDA margin** decreased 200 basis points to 55.2%. Excluding severance and the impact of foreign currency⁷, Adjusted EBITDA margin decreased 50 basis points.

Revenue for Content & Experiences increased compared to the prior year period driven by Theme Parks, Media and Studios. **Adjusted EBITDA** for Content & Experiences increased 2.3%, including \$101 million of severance in the quarter and \$186 million of severance in the prior year period primarily in Headquarters and Other. Excluding severance⁷, Adjusted EBITDA decreased 5.9%, primarily due to a decrease in Media, partially offset by increases in Studios and Theme Parks.

Media

(\$ in millions)

	4th Quarter		Change
	2023	2022 ⁵	
Revenue			
Domestic Advertising	\$2,635	\$2,829	(6.9 %)
Domestic Distribution	2,747	2,532	8.5 %
International Networks	1,047	893	17.3 %
Other	550	514	7.0 %
Total Revenue	\$6,979	\$6,768	3.1 %
Operating Expenses	6,871	6,550	4.9 %
Adjusted EBITDA	\$108	\$218	(50.2 %)

Revenue for Media increased due to higher domestic distribution, international networks and other revenue, partially offset by lower domestic advertising revenue. Domestic distribution revenue increased primarily due to higher revenue at Peacock, driven by an increase in paid subscribers. International networks revenue increased primarily reflecting an increase in revenue associated with the distribution of sports channels and the positive impact of foreign currency. Domestic advertising revenue decreased reflecting the unfavorable comparison to Telemundo's broadcast of the FIFA World Cup in the prior year period. Excluding the contribution from World Cup advertising⁷ in the prior year period, advertising revenue increased 2.7%, primarily due to an increase in revenue at Peacock, partially offset by lower revenue at our networks.

Adjusted EBITDA for Media decreased due to higher operating expenses, which more than offset higher revenue. The increase in operating expenses was due to increased sports programming costs and higher programming costs at Peacock, partially offset by a decrease in content costs at our entertainment television networks, including the impacts of the Writers Guild and Screen Actors Guild work stoppages in the current year period. The increase in sports costs reflected the contractual rate increase in NFL programming, the addition of Big 10 and higher Premier League costs compared to the prior year period when games were paused for four weeks to accommodate the timing of the FIFA World Cup. Media results in the fourth quarter include \$1.0 billion of revenue and an Adjusted EBITDA⁹ loss of \$825 million related to Peacock, compared to \$660 million of revenue and an Adjusted EBITDA⁹ loss of \$978 million in the prior year period.

Studios

(\$ in millions)			
	4th Quarter		
	2023	2022 ⁵	Change
Revenue			
Content Licensing	\$2,375	\$2,382	(0.3 %)
Theatrical	343	216	58.8 %

Total Revenue	\$3,064	\$2,938	4.3 %
Operating Expenses	2,756	2,770	(0.5 %)
Adjusted EBITDA	\$308	\$168	83.0 %

Revenue for Studios increased primarily due to higher theatrical revenue, including the performance of *Five Nights at Freddy's*, *Trolls Band Together*, *The Exorcist: Believer* and *Migration*. Content licensing revenue was consistent as higher content licensing revenue at our film studios was offset by lower content licensing revenue at our television studios, primarily due to the timing of when content was made available under licensing agreements, including the impacts of the Writers Guild and Screen Actors Guild work stoppages in the current year period.

Adjusted EBITDA for Studios increased due to higher revenue and consistent operating expenses. The consistent operating expenses primarily reflected consistent programming and production expenses, due to lower costs associated with lower content licensing sales at our television studios, including the impacts of the work stoppages in the current year period, offset by higher film costs.

Theme Parks

(\$ in millions)			
	4th Quarter		
	2023	2022	Change
Revenue	\$2,371	\$2,114	12.2 %
Operating Expenses	1,499	1,332	12.5 %
Adjusted EBITDA	\$872	\$782	11.6 %

Revenue for Theme Parks increased due to higher revenue at both our international and domestic theme parks. Domestic theme parks revenue increased, reflecting higher revenue at our theme park in Hollywood due to the continued success of Super Nintendo World, partially offset by lower revenue at our theme park in Orlando which continued to be above comparable pre-pandemic 2019 levels.

Adjusted EBITDA for Theme Parks increased, reflecting higher revenue, which more than offset higher operating expenses. The increase in operating expenses was due to higher costs primarily associated with increased guest attendance.

Headquarters & Other

Content & Experiences Headquarters & Other includes overhead, personnel costs and costs associated with corporate initiatives. Headquarters & Other Adjusted EBITDA loss in the fourth quarter was \$337

million, compared to a loss of \$353 million in the prior year period. The year-over-year change included the impact of lower severance in the current year period.

Eliminations

Amounts represent eliminations of transactions between our Content & Experiences segments, the most significant being content licensing between the Studios and Media segments, which are affected by the timing of recognition of content licenses. Revenue eliminations were \$933 million, compared to \$968 million in the prior year period, and Adjusted EBITDA eliminations were a loss of \$20 million, compared to a benefit of \$97 million in the prior year period.

NM=comparison not meaningful.			

Corporate & Other

Corporate & Other primarily includes overhead and personnel costs; our Sky-branded video services and television networks in Germany; Comcast Spectacor, which owns the Philadelphia Flyers and the Wells Fargo Center arena in Philadelphia, Pennsylvania; and Xumo, our consolidated streaming platform joint venture beginning in June 2022. Corporate & Other Adjusted EBITDA decreased primarily reflecting an increase in operating expenses related to Sky operations in Germany, due to higher Bundesliga costs compared to the prior year period when games were paused for four weeks to accommodate the timing of the FIFA World Cup and content charges related to a shift in our entertainment content development strategy.

Eliminations

Amounts represent eliminations of transactions between Connectivity & Platforms, Content & Experiences and other businesses, the most significant being distribution of television network programming between the Media and Residential Connectivity & Platforms segments. Revenue eliminations were \$1.4 billion, consistent with the prior year period, and Adjusted EBITDA eliminations were a loss of \$5 million compared to a benefit of \$28 million in the prior year period.

Notes:

- 1 We define Adjusted Net Income and Adjusted EPS as net income attributable to Comcast Corporation and diluted earnings per common share attributable to Comcast Corporation shareholders, respectively, adjusted to exclude the effects of the amortization of acquisition-related intangible assets, investments that investors may want to evaluate separately (such as based on fair value) and the impact of certain events, gains, losses or other charges that affect period-over-period comparisons. See Table 5 for reconciliations of non-GAAP financial measures.
- 2 We define Adjusted EBITDA as net income attributable to Comcast Corporation before net income (loss) attributable to noncontrolling interests, income tax expense, investment and other income (loss), net, interest expense, depreciation and amortization expense, and other operating gains and losses (such as impairment charges related to fixed and intangible assets and gains or losses on the sale of long-lived assets), if any. From time to time, we may exclude from Adjusted EBITDA the impact of certain events, gains, losses or other charges (such as significant legal settlements) that affect the period-to-period comparability of our operating performance. See Table 4 for reconciliation of non-GAAP financial measure.
- 3 All earnings per share amounts are presented on a diluted basis.
- 4 We define Free Cash Flow as net cash provided by operating activities (as stated in our Consolidated Statement of Cash Flows) reduced by capital expenditures and cash paid for intangible assets. From time to time, we may exclude from Free Cash Flow the impact of certain cash receipts or payments (such as significant legal settlements) that affect period-to-period comparability. Cash payments related to certain capital or intangible assets, such as the construction of Universal Beijing Resort, are presented separately in our Consolidated Statement of Cash Flows and are therefore excluded from capital expenditures and cash paid for intangible assets for Free Cash Flow. See Table 4 for reconciliation of non-GAAP financial measure.
- 5 Beginning in the first quarter of 2023, we changed our presentation of segment operating results around our two primary businesses, Connectivity & Platforms and Content & Experiences. We present the operations of (1) our Connectivity & Platforms business in two segments: Residential Connectivity & Platforms and Business Services Connectivity and (2) our Content & Experiences business in three segments: Media, Studios and Theme Parks. We have updated certain historical information as a result of these changes, including: (1) presentation of Cable Communications results in the Residential Connectivity & Platforms and Business Services Connectivity segments and (2) presentation of Sky's results across the segments within the Connectivity & Platforms and Content & Experiences business segments, and Corporate & Other.
- 6 Constant currency growth rates are calculated by comparing the results for each comparable prior year period adjusted to reflect the average exchange rates from each current year period presented rather than the actual exchange rates that were in effect during the respective periods. See Table 6 for reconciliations of non-GAAP financial measures.
- 7 From time to time, we may present adjusted information (e.g., Adjusted Revenues) to exclude the impact of certain events, gains, losses or other charges affecting period-to-period comparability of our operating performance. See Table 7 and Table 8 for reconciliations of non-GAAP financial measures.
- 8 Customer metrics for 2022 have been updated to reflect the new segment presentation, and to align methodologies for counting business customer metrics to: (1) include locations receiving our services outside of our distribution system and (2) now count certain customers based on the number of locations receiving services, including arrangements whereby third parties provide connectivity services leveraging our distribution system. These changes in methodology were not material to any period presented. Previously reported total Sky customer relationships of approximately 23 million as of December 31, 2022 also included approximately 5 million customer relationships receiving Sky services in Germany.
- 9 Adjusted EBITDA is the measure of profit or loss for our segments. From time to time, we may present Adjusted EBITDA for components of our reportable segments, such as Peacock. We believe these measures are useful to evaluate our financial results and provide a basis of comparison to others, although our definition of Adjusted EBITDA may not be directly comparable to similar measures used by other companies. Adjusted EBITDA for components are generally presented on a consistent basis with the respective segments and include direct revenue and operating costs and expenses attributed to the component operations.

Numerical information is presented on a rounded basis using actual amounts. Minor differences in totals and percentage calculations may exist due to rounding.

Caution Concerning Forward-Looking Statements

This press release includes statements that may constitute forward-looking statements. In evaluating these statements, readers should consider various factors, including the risks and uncertainties we describe in the "Risk Factors" sections of our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q and other reports filed with the Securities and Exchange Commission (SEC). Factors that could cause our actual results to differ materially from these forward-looking statements include changes in and/or risks associated with: the competitive environment; consumer behavior; the advertising market; consumer acceptance of our content; programming costs; key distribution and/or licensing agreements; use and protection of our intellectual property; our reliance on third-party hardware, software and operational support; keeping pace with technological developments; cyber attacks, security breaches or technology disruptions; weak economic conditions; acquisitions and strategic initiatives; operating businesses internationally; natural disasters, severe weather-related and other uncontrollable events; loss of key personnel; labor disputes; laws and regulations; adverse decisions in litigation or governmental investigations; and other risks described from time to time in reports and other documents we file with the SEC. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date they are made, and involve risks and uncertainties that could cause actual events or our actual results to differ materially from those expressed in any such forward-looking statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether because of new information, future events or otherwise. The amount and timing of any dividends and share repurchases are subject to business, economic and other relevant factors.

###

Non-GAAP Financial Measures

In this discussion, we sometimes refer to financial measures that are not presented according to generally accepted accounting principles in the U.S. (GAAP). Certain of these measures are considered "non-GAAP financial measures" under the SEC regulations; those rules require the supplemental explanations and reconciliations that are in Comcast's Form 8-K (Quarterly Earnings Release) furnished to the SEC.

Exhibit 99.2 - Explanation of Non-GAAP and Other Financial Measures

This Exhibit 99.2 to the accompanying Current Report on Form 8-K for Comcast Corporation (“we”, “us” or “our”) sets forth the reasons we believe that presentation of financial measures not in accordance with generally accepted accounting principles in the United States (GAAP) contained in the earnings press release filed as Exhibit 99.1 to the Current Report on Form 8-K provides useful information to investors regarding our results of operations and financial condition. To the extent material, this Exhibit also discloses the additional purposes, if any, for which our management uses these non-GAAP financial measures. Reconciliations between these non-GAAP financial measures and their most directly comparable GAAP financial measures are included in the earnings press release itself. Non-GAAP financial information should be considered in addition to, but not as a substitute for, operating income, net income, net income attributable to Comcast Corporation, earnings per common share attributable to Comcast Corporation shareholders, net cash provided by operating activities or other measures of performance or liquidity reported in accordance with GAAP.

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure and is the primary basis used to measure the operational strength and performance of our businesses as well as to assist in the evaluation of underlying trends in our businesses. This measure eliminates the significant level of noncash depreciation and amortization expense that results from the capital-intensive nature of certain of our businesses and from intangible assets recognized in business combinations. It is also unaffected by our capital and tax structures, and by our investment activities, including the results of entities that we do not consolidate, as our management excludes these results when evaluating our operating performance. Our management and Board of Directors use this financial measure to evaluate our consolidated operating performance and the operating performance of our operating segments and to allocate resources and capital to our operating segments. It is also a significant performance measure in our annual incentive compensation programs. Additionally, we believe that Adjusted EBITDA is useful to investors because it is one of the bases for comparing our operating performance with that of other companies in our industries, although our measure of Adjusted EBITDA may not be directly comparable to similar measures used by other companies.

We define Adjusted EBITDA as net income attributable to Comcast Corporation before net income (loss) attributable to noncontrolling interests, income tax expense, investment and other income (loss), net, interest expense, depreciation and amortization expense, and other operating gains and losses (such as impairment charges related to fixed and intangible assets and gains or losses on the sale of long-lived assets), if any. From time to time, we may exclude from Adjusted EBITDA the impact of certain events, gains, losses or other charges (such as significant legal settlements) that affect the period-to-period comparability of our operating performance.

We also use Adjusted EBITDA as the measure of profit or loss for our segments. Our measure of Adjusted EBITDA for our segments is not a non-GAAP financial measure under rules promulgated by the Securities and Exchange Commission.

Adjusted Net Income and Adjusted EPS

Adjusted Net Income and Adjusted EPS are non-GAAP financial measures presenting the earnings generated by our ongoing operations that we believe is useful to investors in making meaningful comparisons to other companies, although these measures may not be directly comparable to similar measures used by other companies, and period-over-period comparisons. Adjusted Net Income and Adjusted EPS are defined as net income attributable to Comcast Corporation and diluted earnings per common share attributable to Comcast Corporation shareholders, respectively, adjusted to exclude the effects of the amortization of acquisition-related intangible assets, investments that investors may want to evaluate separately (such as based on fair value) and the impact of certain events, gains, losses or other charges that affect period-over-period comparisons. Acquisition-related intangible assets are recognized as a result of the application of Accounting Standards Codification Topic (“ASC”) 805, *Business Combinations* (such as customer relationships), and their amortization is significantly affected by the size and timing of our acquisitions. Amortization of intangible assets not resulting from business combinations (such as software and acquired intellectual property rights used in our theme parks) is included in Adjusted Net Income and Adjusted EPS. Investments that investors may want to evaluate separately include all equity securities accounted for under ASC Topic 321, *Investments-Equity Securities*, as well as certain investments accounted for under ASC 323, *Investments-Equity Method and Joint Ventures*.

Free Cash Flow

Free Cash Flow is a non-GAAP financial measure that we believe provides a meaningful measure of liquidity and a useful basis for assessing our ability to repay debt, make strategic acquisitions and investments, and return capital to investors through stock repurchases and dividends. It is also a significant performance measure in our annual incentive compensation programs. Additionally, we believe Free Cash Flow is useful to investors as a basis for comparing our performance and coverage ratios with other companies in our industries, although our measure of Free Cash Flow may not be directly comparable to similar measures used by other companies. Free Cash Flow has certain limitations, including that it does not represent the residual cash flow available for discretionary expenditures since other non-discretionary payments, such as mandatory debt repayments, are not deducted from the measure.

Free Cash Flow is defined as net cash provided by operating activities (as stated in our Consolidated Statements of Cash Flows) reduced by capital expenditures and cash paid for intangible assets. From time to time, we may exclude from Free Cash Flow the impact of certain cash receipts or payments (such as significant legal settlements) that affect period-to-period comparability. Cash payments related to certain capital or intangible assets, such as the construction of Universal Beijing Resort, are presented separately in our Consolidated Statements of Cash Flows and are therefore excluded from capital expenditures and cash paid for intangible assets for Free Cash Flow.

Constant Currency

Constant currency and constant currency growth rates are non-GAAP financial measures that present our results of operations excluding the estimated effects of foreign currency exchange rate fluctuations. Certain of our businesses, including Connectivity & Platforms, have operations outside the United States that are conducted in local currencies. As a result, the comparability of the financial results reported in U.S. dollars is affected by changes in foreign currency exchange rates. In our Connectivity & Platforms business, we use constant currency and constant currency growth rates to evaluate the underlying performance of the businesses, and we believe they are helpful for investors because such measures present operating results on a comparable basis year over year to evaluate their underlying performance.

Constant currency and constant currency growth rates are calculated by comparing the results for each comparable prior year period adjusted to reflect the average exchange rates from each current year period presented rather than the actual exchange rates that were in effect during the respective periods.

Other Adjustments

We also present adjusted information (e.g., Adjusted Revenues), to exclude the impact of certain events, gains, losses or other charges. This adjusted information is a non-GAAP financial measure. We believe, among other things, that the adjusted information may help investors evaluate our ongoing operations and can assist in making meaningful period-over-period comparisons.

Pro Forma Information

Pro forma information is used by management to evaluate performance when certain acquisitions or dispositions occur. Historical information reflects results of acquired businesses only after the acquisition dates while pro forma information enhances comparability of financial information between periods by adjusting the information as if the acquisitions or dispositions occurred at the beginning of a preceding year. Our pro forma information is adjusted for the timing of acquisitions or dispositions, the effects of acquisition accounting and the elimination of costs and expenses directly related to the transaction, but does not include adjustments for costs related to integration activities, cost savings or synergies that have been or may be achieved by the combined businesses. Pro forma information is not a non-GAAP financial measure under Securities and Exchange Commission rules. Our pro forma information is not necessarily indicative of future results or what our results would have been had the acquired businesses been operated by us during the pro forma period.
