Caution Concerning Forward-Looking Statements
This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify those so-called “forward-looking statements” by words such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” or “continue,” or the negative of those words and other comparable words. We wish to take advantage of the “safe harbor” provided for by the Private Securities Litigation Reform Act of 1995 and we caution you that actual events or results may differ materially from the expectations we express in our forward-looking statements as a result of various risks and uncertainties, many of which are beyond our control. Factors that could cause our actual results to differ materially from these forward-looking statements include: (1) changes in the competitive environment, (2) changes in business and economic conditions, (3) changes in our programming costs, (4) changes in laws and regulations, (5) changes in technology, (6) adverse decisions in litigation matters, (7) risks associated with acquisitions and other strategic transactions, (8) changes in assumptions underlying our critical accounting policies, and (9) other risks described from time to time in reports and other documents we file with the Securities and Exchange Commission. We undertake no obligation to update any forward-looking statements. The amount and timing of share repurchases and dividends is subject to business, economic and other relevant factors.

Non-GAAP Financial Measures
Our presentation may also contain non-GAAP financial measures, as defined in Regulation G, adopted by the SEC. We provide a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measure in our Form 8-K (Quarterly Earnings Release), which can be found on the SEC’s website at www.sec.gov, announcing our quarterly earnings.

Notes

1 Operating Cash Flow is defined as operating income before depreciation and amortization, excluding impairment charges related to fixed and intangible assets and gains or losses on sale of assets, if any. Please refer to our Form 8-K (Quarterly Earnings Release) for a reconciliation of consolidated operating cash flow.

2 Free Cash Flow, which is a non-GAAP financial measure, is defined as "Net Cash Provided by Operating Activities" (as stated in our Consolidated Statement of Cash Flows) reduced by capital expenditures and cash paid for intangible assets and adjusted for any payments related to certain non-operating items, net of estimated tax benefits (such as income taxes on investment sales, and non-recurring payments related to income tax and litigation contingencies of acquired companies). The definition of Free Cash Flow specifically excludes any impact from the 2008 or 2009 Economic Stimulus packages. Please refer to Form 8-K (Quarterly Earnings Release) for a reconciliation and further details. Free Cash Flow per Share is calculated by taking Free Cash Flow (as described above) divided by diluted weighted-average number of common shares outstanding used in the calculation of earnings per share.

3 Earnings per share are adjusted for gains, net of tax, related to the dissolution of the 2008 Insight Midwest Partnership. Please refer to Table 4 in our 2Q09 earnings release for a reconciliation of adjusted net income attributable to Comcast Corporation and earnings per share. Earnings per share amounts are presented on a diluted basis.

4 Pro forma results adjust for certain cable segment acquisitions and dispositions, including the cable systems resulting from the dissolution of the Texas / Kansas City Cable Partnership (January 2007), Comcast SportsNet Bay Area / Comcast SportsNet New England (June 2007), the cable system acquired from Patriot Media (August 2007), and the dissolution of the Insight Midwest Partnership (January 2008). Pro forma customer data also includes 7,000 video customers acquired through an acquisition in November 2008. The impact of these acquisitions on our segment operating results was not material. Please refer to our 2008 earnings releases for a reconciliation of 2007 pro forma financial data.

5 “All-Digital” refers to the migration to all digital transmission of certain analog channels.

For more detailed information please refer to our quarterly earnings release.
